New! Up-to-Date 2018 Candidate Data for your Website...

KnowWho®
Candidate Web Service

BUILD SAMPLE BALLOTS OR SIMPLY EDUCATE YOUR VISITORS

Candidate Web Service provides a variety of methods to obtain Federal and State candidate data. Easily submit requests using JSON or XML, including address info for geocoding, and our web service returns the appropriate data. You get current data without having to maintain a backend, and complete control over your interface.

CANDIDATE WEB SERVICE BENEFITS:

- *EASY:* Use JSON or XML to submit your request and then parse the return in the same format
- *FAST:* Our state-of-the-art data center ensures round trip response times are normally less than a half-second
- *FLEXIBLE*: Available for federal government candidates and state government candidates; subscribe to any combination of these two services
- *UP-TO-DATE* - Daily updates ensure you get the most accurate and comprehensive information available.

TWO SERVICE LEVELS AVAILABLE:

Basic Service Includes

Person Information: Candidates name, ethnicity, gender, party, party code, image URL

Position Information: Position type, organization, state, district, election date, last vote percentage, candidate status, incumbency, FEC Link Number (Congress)

Primary Office Information: Office title, address, telephone and fax

Web and Social Media: Email address, webform, website, blog, Facebook, Twitter, YouTube

Premium Service Includes

All of the above, plus -

Staffers (for each available key staffer): Full Name, title

Biography: Text of biography
